

# DOES NOT KNOW OF PEACE TERMS

## Russian Envoy Awaits Meeting With Japanese Before Giving Opinion.

# INDEMNITY IS THE DIRECT ISSUE

### This With The Matter Of Territory To Be Ceded, Is Apt To Cause Serious Rupture At The Outset.

[SPECIAL BY SCRIPPS-M'RAE.]  
Portland, N. H., Aug. 8.—The Russian Envoy came into this port this morning. At ten o'clock Envoy Witte who came by train last night boarded the Mayflower and was present with his colleagues when Admiral Mead read the official call. Mead visited the Japanese on the Dolphin afterwards. The Envoy went ashore and joined in procession to the Peace Conference Building. Breakfast was served and they then went across a bridge to this city where they were met by the National Guardsmen commanded by Col. Tetley. The procession to the court house was met by the governor. From the official reception the public was excluded. It was held at Hotel Wentworth where flags of the respective nations over quarters were assigned.

Portland, N. H., Aug. 8.—M. Witte, accompanied by M. Wilken, financial agent of the Russian embassy in this country, arrived at 11:15 o'clock Monday night from Boston. M. Witte was taken at once to the Hotel Wentworth in one of the state department's red automobiles. He retired soon after he had arrived, saying he had spent a busy day sight-seeing in Boston and desired to get a good rest before the beginning of the conference.

In Boston M. Witte said: "I do not know the Japanese conditions of peace and therefore I could not discuss them, even if I wished. Of course, I can form opinions as to what they may be and make my own conclusions; but I do not know them. I have not heard them authoritatively and they may be entirely different from my own ideas."

**Opposes Indemnity.**  
It was learned here from men who have talked with M. Witte during the past few days that he is unalterably opposed to an indemnity.

In this he is supported by public sentiment in Russia. He comes here to make peace, if peace can be made, and his position can be described as an envoy who wants peace, who will welcome peace, but who is not willing to purchase peace at any price. Japan, the Russians understand, also wants peace. It is the opinion of those who have talked with M. Witte that he will earnestly strive for peace, and the pessimism toward the outcome, as displayed by both Japanese and Russians, is more fancied than real.

**Will Cede No Territory.**  
It can be stated authoritatively that the Russians will cede no territory. They consider this a colonial war and say that the Japanese have given no territory and therefore must not for a cession. They are willing to give up Port Arthur and the control of Korea and they will not haggle very long about minor matters. They are firm on the indemnity proposition.

So far as Sakhalin is concerned, the Russians are convinced that if the last

analysis the Japanese only want the fishing rights.

It was suggested to M. Witte that a way over the indemnity difficulty would be to pay Japan a large sum for the restoration of Russia's political right in Sakhalin island. There will be no difficulty over the payment for the care of Russian prisoners by Japan. Both Russia and Japan subscribed to The Hague convention and that provides such payment.

**Must Evade Direct Payment.**  
M. Witte is not so pessimistic as he has been painted. It is his intention to strive earnestly for a peace that shall be lasting. Still he is bound by very rigid instructions and one of them is that there shall be no indemnity as such. If he is skillful enough to get an indemnity in some circuitous manner, although he is personally opposed to such a step, he is likely to be supported by his sovereign.

The question of money payment is the rock on which the conference will split if it splits at all. There is no doubt of that. It is known here that President Roosevelt knows the Japanese terms, or at least has an outline of them. He was given this information last Saturday by Baron Komura. The president has given no hint of his knowledge to the Russians.

**Questions Jap Veracity.**  
On the way from Boston M. Witte dictated a statement concerning dispatches from Tokyo. M. Witte's statement is as follows:

"I have read in the telegram from Tokyo that the Japanese captured 40,000 Russian soldiers at the island of Sakhalin during the recent operations there. Now, so far as I know, the whole garrison in Sakhalin island consists of no more than 4,000. It is a known fact that the Russian soldiers do not surrender and if we take into consideration that some of the soldiers of the island garrison were killed then the number of captured could not even reach 4,000."

**Limit to Exaggeration.**  
"I do not wish at all to minimize the successes or bravery of the Japanese, but at the same time all the people of Russia and myself can not help being surprised at the cables which have reached us during the war from Tokyo. According to them, if all those Russian soldiers which have from time to time been reported from Tokyo as captured, killed or wounded had in fact been captured, killed or wounded by the Japanese Russia would not at this time possess any army at all, and then my journey to the United States would be quite superfluous. Reading these cables a well-known Russian proverb comes to my memory. I might translate it thus: 'One can exaggerate, but there is a limit to exaggeration.'"

**DEMANDS THAT SON  
GIVE ACCOUNTING**  
Defendant's Secret Marriage Against Family Objections Causes Estrangement.

LaPorte, Ind., Aug. 8.—Piqued because her son secretly married Miss Jessie Campbell, a society belle of Michigan City, Ind., against her wishes, Mrs. Amelia Leeds, formerly of Michigan City, but for the past year a resident of Chicago, in the LaPorte circuit court brought suit against her son, Otley W. Leeds, a well known Michigan City business and club man, for an accounting of the real and personal estate of her deceased husband, Walter O. Leeds. Miss Caroline Leeds joins her mother in the action.

Walter O. Leeds died in 1896, leaving real and personal property claimed by the widow to have been worth \$120,000. The heirs were Mrs. Leeds and her two children. Otley Leeds was made administrator and, according to the complaint, filed an inventory showing the estate in 1900 to be worth but \$35,253.

Mother and daughter now allege that young Leeds has failed to and refused to still refuses to make an accounting of the property in his hands and refuses to turn over to the mother and sister their shares of the estate, which is said to have since increased to more than \$150,000.

Besides the accounting the court is asked to partition the real estate, which is located in LaPorte, Lake and Porter counties, and Cook county, and Chicago, and to appoint a receiver.

**SPARKS FROM THE WIRES**  
Miss Ethel Delaney of Lexington, Ky., was arrested here yesterday on a charge of complicity in murdering Cecil Crutcher July 26 last. Miss Delaney was at a dance when the murder occurred.

In a fit of jealous rage Andy Kis, a Hungarian, yesterday fired four shots into the body of Julia Bemis and then fired a fifth into his abdomen at Lorain, Ohio. Both were taken to a hospital in a serious condition. Otto McKinley, aged 29, a Spanish war veteran, committed suicide last night at Fort Wayne, Ind., while despondent.

Blood-bespattered clothes, the Detroit police say, were found in the luggage of Johnson and Parker, the two prisoners suspected of murdering Joseph Meyer, the pawnbroker, on July 28. Other evidence against them has been reported.

"How do they know?" It was dark. It was after midnight. "Then was the complaining exclamation made yesterday by Frank Hite, of Upper Sandusky, Ohio, charged with the murder of his wife, when told that the people believed him guilty."

Suffering from terrible cuts inflicted with a hatchet, Knud Shaffer, of New Philadelphia, Ohio, was found helpless in her home yesterday. Harvey Colvin, whom Miss Shaffer accused of having inflicted the wounds, was found later. He had swallowed carbolic acid and died shortly after.

Uncle Sam—I thought I banished you from Cuba. The Yellow Jack—So you did, and you want to run me out of Panama, so I came here.

## CHAMPAGNE IS USED DESPITE HIS WISH

### Governor Hoch of Kansas, Had Preferred Water for Christening of Ship, "Kansas."

[SPECIAL TO THE GAZETTE.]  
Camden, N. Y., August 8.—The battleship Kansas was launched here today with brilliant ceremony under the sponsorship of Miss Anna Hoch, youngest daughter of Governor Hoch of Kansas. The Governor and members of his military staff were present as guests of the shipbuilders and officials of the Government, and after the christening luncheon was served the party. Champagne was used for the christening although it was against the preference of Governor Hoch who wanted water used instead. There was serious objection to the using of water, however, as Governor Hoch yielded to tradition and smiled while Miss Anna broke a bottle of the sparkling liquid over the monstrous warship, at the same time naming her.

The Kiel of the Kansas was laid in 1904. Her displacement is 16,500 tons and speed eighteen knots per hour. When completed she will be one of the most formidable battleships in the United States navy and her cost will be \$4,165,000.

## DELICATE HEALTH PREVENTS ADDRESS

### Texas Farmers Disappointed Over Inability of Ex-Governor Hogg to Speak to Them.

[SPECIAL TO THE GAZETTE.]  
Waco, Texas, August 8.—The annual state convention of the Texas Farmers' Union opened here today, and although there is a representative number of delegates, there is some disappointment over the failure of former Governor James S. Hogg to attend the meeting, as he was scheduled for the principal speaker. Governor Hogg has been compelled to leave the state for Colorado owing to the extreme delicacy of his health. It is even feared that he may be unable to return to the state, his illness requiring a higher latitude.

## VAST EFFORTS TO UNITE LUTHERANS

### Intersynodical Conference of United States in Session at Fort Wayne, Indiana.

[SPECIAL TO THE GAZETTE.]  
Fort Wayne, Ind., August 8.—A meeting of vast importance to the Lutherans of the United States opened here today. The Intersynodical conference composed of delegates from the three American synods have met for the purpose of trying to arrive at a plan of union on doctrinal matters. The failure of the synods to arrive at a satisfactory understanding on these matters is what has hitherto divided the Lutherans.

Colonel Jerome B. Nulton, aged 70, a veteran of the civil war and a former member of the Illinois legislature, died at his home in Carrollton, Ill., yesterday.

## REAL DROMEDARIES AND CAMELS USED

### Mystic Shriners of Montana Administer Rites in Proper Style.

[SPECIAL TO THE GAZETTE.]  
Butte, Mont., August 8.—The Mystic Shriners of Montana today increased the membership of King Edward and Premier Balfour to close the breach which has separated them for some time and which has cropped out despite every effort to keep the fact suppressed. For several days it has been known that the King and his premier spokesman were scarcely on speaking terms. There is no better proof of this than the very brief interviews allowed Mr. Balfour by the King, especially when the government's position in Parliament is so critical. The King is a man of the world, the Premier a dilettante and idealist. The distinguished pair are reported always to speak of each other unceremoniously.

Furthermore the present coolness has revived an ill-feeling of ten years' standing when Mr. Balfour spoke disparagingly of a social episode in his life when the King was Prince of Wales. Even today it is said that the Premier speaks disdainfully of the king's friends and avoids many of them whenever it is possible, meeting them only on public occasion of state.

## DELEGATES TO THREE BIG CONVENTIONS GATHERED

### Chicago Receives Stereotypers And Electrotypers, Their Auxiliaries And Laundry Workers.

[SPECIAL TO THE GAZETTE.]  
Chicago, Ill., August 8.—Three big conventions which have brought several thousand delegates to the Windy City opened today. They are the Stereotypers and Electrotypers Union, which is holding joint sessions with the International Stereotypers and Electrotypers' Union Women's Auxiliary and the convention of the International Short Waist and Laundry Workers' Union.

## TRYING FOR HAVEMEYER CUP AND FOUR MEDALS

### Golf Derby on Wheaton Links at Chicago Begins in Earnest Today.

[SPECIAL TO THE GAZETTE.]  
Chicago, Ill., August 8.—The official games of the program for the golf derby on Wheaton links began today and unusual interest is manifested in the play, which is for eighteen holes on account of the clever work done by the contestants for the Olympic team trophy yesterday. The prizes to be competed for from now until Saturday are the Havemeyer cup and four medals.

## RUN STARTED ON A DENVER BANK

### Which Had Been Paying Ten Per Cent on Deposits—Ill Report Had Been Spread.

[SPECIAL BY SCRIPPS-M'RAE.]  
Denver, Colo., Aug. 8.—A run was started on the Denver Savings bank this morning. When the doors were opened reports of financial difficulties had been spread. The bank has been paying ten per cent on deposits. Vice-president Jones says he can give no reason for the run. The bank is entirely solvent he declares. The thirty-day rule will be enforced.

Acting-governor Davidson has appointed the following delegates from Wisconsin to the thirteenth annual national irrigation congress to be held at Portland, Ore., Aug. 21 to 24: Senator A. M. Stoddard, Prof. C. S. Slichter, Madison; Thomas Bardon, Ashland; W. W. Potter, Alexander McLaren, Chippewa Falls; Howard Thomas, John T. Murphy, Martin Patterson, Superior; Alexander Cobban, Rhinelander; Charles Collander, Jackson county.

## A BREACH BETWEEN KING AND BALFOUR

### Head and Premier of England on Cool Terms—Attempt to Suppress Facts.

[SPECIAL TO THE GAZETTE.]  
London, August 8.—Political circles are deeply stirred over the reported failure of the friends of King Edward and Premier Balfour to close the breach which has separated them for some time and which has cropped out despite every effort to keep the fact suppressed. For several days it has been known that the King and his premier spokesman were scarcely on speaking terms. There is no better proof of this than the very brief interviews allowed Mr. Balfour by the King, especially when the government's position in Parliament is so critical. The King is a man of the world, the Premier a dilettante and idealist. The distinguished pair are reported always to speak of each other unceremoniously.

Furthermore the present coolness has revived an ill-feeling of ten years' standing when Mr. Balfour spoke disparagingly of a social episode in his life when the King was Prince of Wales. Even today it is said that the Premier speaks disdainfully of the king's friends and avoids many of them whenever it is possible, meeting them only on public occasion of state.

## MANY RECEPTIONS FOR TAFT COMPANY

### General and Mrs. Henry C. Corbin Will Be Entertainers Tomorrow Evening.

[SPECIAL TO THE GAZETTE.]  
Manila, August 8.—This week, which is being given over to official entertainments in honor of the Taft party will no doubt prove the most brilliant social week in the history of the islands. Tonight the American party will be the guests of the chamber of commerce. Tomorrow General and Mrs. Henry C. Corbin will entertain the party at a reception at the Army and Navy club.

## MINERS WILL HEAR ROOSEVELT SPEAK

### President Will Address Convention at Wilkesbarre, Pennsylvania, Thursday.

[SPECIAL TO THE GAZETTE.]  
Oyster Bay, August 8.—President Roosevelt has completed arrangements for his trip to Wilkesbarre, Pa., where he will make an address to the miners at their convention there Thursday morning and will return to Oyster Bay the same day.

Secretary Shaw speaks to Republicans of Virginia.

Head of Treasury and Roosevelt Both Anxious For Their Success in State.

[SPECIAL TO THE GAZETTE.]  
Roanoke, Va., August 8.—The Republican state convention opened here today and was addressed by Secretary Shaw of the Treasury. The nominations will probably take place tomorrow. It is known that President Roosevelt as well as Secretary Shaw is unusually interested in the workings of the Republicans and anxious for their success.

# MONEY WAS NOT USED TO BRIBE

## Attorney George Lines Makes Definite Statement For Client Chas. Pfister.

# RENDERING CO. ATTORNEY AGREES

### Counsel Geo. Miller Says That The Transaction Did Not Partake Of Corruption From Any View Point.

[SPECIAL BY SCRIPPS-M'RAE.]  
Milwaukee, Wis., Aug. 8.—George Lines of the firm of Quarles, Spence & Quarles, who has charge of the suit instituted against the Wisconsin Rendering company by Charles F. Pfister, said: "The money was not used for purposes of bribery. That much can be stated absolutely."

George P. Miller, attorney for the Wisconsin Rendering company, said: "It has been intimated that the transaction between Mr. Pfister and the Wisconsin Rendering company partook of the nature of bribery with a view to unduly influencing members of the common council at the time the contract for the disposal of garbage was under consideration. That can be denied absolutely, of course. Of the exact nature of the transaction I have not yet been informed."

**May Make Public Statement.**  
"A conference will be held at which the details will be thoroughly gone into and a statement may then be given to the public. I do not suppose Mr. Pfister himself remembers the details of the transactions and he will doubtless have to go through the stubs in bank book and other documents for definite information."

Inasmuch as the Wisconsin Rendering company admits the claims made by Mr. Pfister in his suit, it is unlikely that there will be a contest over it unless District Attorney McGovern takes a hand. The Rendering company will file an answer fully agreeing in all particulars with Mr. Pfister's complaint.

**Grand Jury Criticized.**  
District Attorney McGovern declines to talk. He is about to go on a short vacation, but will remain in Milwaukee until after the decision of Court Commissioner Scheiber in the Schultz Strauss slander suit.

Persons close to the district attorney say the grand jury had no information to the effect that Mr. Pfister had withheld \$14,000 from the Rendering company, but that they supposed he had expended it at the time that the garbage contract was under the discussion and indicted him for embezzlement in order to force him to explain.

The grand jury is being freely criticized for indicting Pfister on a false charge for the purpose of finding out something else.

## EARLY ADVISOR OF CARNEGIE AT SKIBO

### Man, Who Induced Library Founder to Engage in Iron Business, Now in Europe.

[SPECIAL TO THE GAZETTE.]  
Chorburgh, August 8.—Thomas N. Miller, president of the Pittsburgh Opera company, who induced Andrew Carnegie to engage in the iron business, from which he has made his colossal fortune, arrived here today on his way to visit Mr. Carnegie. It is the first time Mr. Miller has visited Europe since 1882 when he accompanied Mr. Carnegie on the latter's first trip to Europe.

## ALBANY DEPT. STORE COLLAPSED TODAY

### Instiution of Meyer & Co. is a Wreck, and Many Employes Are Fatally Injured

Albany, N. Y., Aug. 8.—The building occupied by Meyer & Co. collapsed this morning and it is believed that fifty are killed or injured. Many boys and girls who were employed in the house are victims. Some customers and one member of the firm are missing. At noon one dead body and seventy-five wounded people had been taken from the ruins. Many of the injured will die. It is feared that many are still in the ruins. The Meyer's department store is one of the largest and oldest in the city.

## NEWS OF THE STATE IN BRIEF.

Milwaukee hopes to capture the 1906 convention of Eagles and will send a big delegation to Denver on Saturday.

The census returns give Askeaton a population of 1,234, a decrease of twenty-three since 1900.

The board of review has assessed Beloit's valuation at \$8,117,278, an increase over last year of \$1,029,469.

Several barns were blown down, trees were up-rooted and crops damaged by Saturday's storm in Trempealeau county.

In a runaway accident at Baraboo, Andrew Pratt, a well to do farmer, was thrown against the curb and his skull fractured. He will die.

Robbers broke into Roland L. Porter's residence at Mukwonago Sunday night and secured \$58. The postoffice was also entered and a few pennies secured.

A. N. Bort has declined a re-election by the Beloit school board to the office of clerk, which place he has held twenty-one years. He continues to hold membership in the board.

The census shows that out of a total population of 4,157 for De Pere, the foreign born residents number 1,125, those born in Holland being in the majority. Of the native born 3,032 were born in Wisconsin.

Green Bay's new health officer has taken a radical step in withdrawing a special permit granted by his predecessor allowing the Green Bay Soap company to render at its plant in this city. The step will cause the company to close down, temporarily at least.

The members of the fire and police commission of Racine investigated charges made by Mayor Nelson and S. R. Bryan against Policeman George Crangle and sustained a portion of the charges, but considered both parties at fault and reinstated the officer.

## ASPHALT TRUST NO GO IN VENEZUELA

### Supreme Bench Decides That Participation in Revolution Annuls All Concessions to the Company.

Washington, Aug. 8.—The Supreme Court of Venezuela has rendered judgment in the appeal of the Bermudez Asphalt Company, confirming all the points in the original judgment of May 20 last with costs. The decision further annuls the Hamilton contract and grants damages for the government. No appeal now is possible against this judgment.

The court holds that the defendant company forfeited its rights by participating in the Matos revolution in 1903. The case has been pending for months, during which time this government by implied and expressed demands has threatened Venezuela with summary justice in an equitable decision were not rendered.

The officials of the asphalt company have appealed to Washington as Americans. They have claimed that the whole proceeding is a travesty on justice, as President Castro has had the courts absolutely under control.

The United States has approached Venezuela half a dozen times in the matter, but has met only with defiance. Herbert W. Bowen, until recently minister to Caracas, once asked the state department to send warships to Venezuela.

It was to straighten out the international tangle, involving, as it does, not only American rights, but the claims of European powers as well, that President Roosevelt sent W. J. Calhoun of Chicago to Venezuela as confidential agent to ascertain the equity of conflicting arguments. Upon his report will depend the attitude of this government.

## NEW YORK TEMPLE WAS BURNED TODAY

### St. Thomas' Church, in Center of Fashionable District, Destroyed—Loss \$375,000.

[SPECIAL BY SCRIPPS-M'RAE.]  
New York, Aug. 8.—St. Thomas church, one of the richest in the country and in the center of the fashionable residence district, was destroyed by fire this morning. The Rockefeller and other millionaires' houses were threatened. The church contents which were lost were valued at \$125,000. The church itself cost \$375,000.

## STATE NOTES

Gen. Joseph H. Lyon of Leavenworth, Kas., has been appointed temporary major general of the Uniform Rank Knights of Pythias to fill the vacancy caused by the death of Gen. James R. Carnahan. The appointment was made by Charles E. Shively of Richmond, supreme chancellor and commander in chief of the Uniform Rank Knights of Pythias, and was announced at a conference of the officers of the order held in the general offices in Indianapolis.

The 11-year-old daughter of Sherman Crabtree of Pike county, Ind., was struck by lightning while combing her hair yesterday and instantly killed.

## COUNCIL HAD A BUSY SESSION

STREET IMPROVEMENTS DEMAND-  
ED SERIOUS ATTENTION.

### JACKMAN'S AUTO MEASURE

Which Also Governs Horses, Given a Reading—C. A. Potter Is Vindicated.

Final report of the street assessment committee on the plans and specifications for the improvements about to be undertaken on that portion of Milwaukee avenue lying between East and Harrison streets was received by the council last evening and no property-holder appeared to offer suggestion or objection. In the assessment of benefits and damages the committee reported that no parcel of land would be damaged and that the owners of the parcels benefited should pay a total of \$1,333.51 while the city should contribute from the third ward fund the sum of \$1,144.94. The same committee reported the cost of paving between the Street Railway Co.'s tracks to have been \$568.90 and the council was about to instruct the city clerk to draw on the treasurer for that sum payable to B. P. Crossman when Ald. Dunn objected on the ground that the brick had not remained in place in some localities. On suggestion of City Engineer Kerch that it would cost about \$35 to re-lay these bricks, that amount was deducted and the order was made for \$533.90 in partial payment. The committee on highways to whom were referred the statements and schedules prepared by the city clerk of the severing assessments made for the improving of South Main, East and West Milwaukee streets, which the owners of the property had not elected to pay, reported through Chairman Murray that they had found them correct and in the form and recommended that they be confirmed and adopted, and, after approval by the mayor, recorded and filed in the city clerk's office, together with a copy of the bonds issued for the same. By an order the city clerk was authorized to issue these special improvement bonds, and the mayor was empowered to negotiate and sell them at a sum not less than par value, the cash thus accruing to be used in taking up the certificates of the said property owners who had not elected to pay. The clerk was also instructed to draw an order on the treasurer in favor of Elzy & Dunn for the sum of \$686.40 in part payment for the paving work on South Main street. The sum of \$4,877.35 was reported as the amount now due this contracting firm for work in the 1st, 5th, 2nd and 3rd wards and their assignment to the Rock County National bank was received and placed on file.

**With Regard to Sewers.**  
The street assessment committee reported that in addition to the special assessment in Sewer District No. 5 an additional \$1,000 would be needed this year and recommended the assessment of the tax against all property subject thereto. This report was received and placed on file. An order for \$26.30 in favor of Contractor M. J. Benson for work done in District 11, the sum having previously been erroneously assessed to the Zehninger property, was authorized. Notification was received from J. M. Bostwick & Sons that the city would be held liable for damages resulting from the water running into the basement of their store at 35 South Main street by reason of a defective gutter. Further time was granted the judiciary committee to report on this matter and in the meantime the city engineer was advised to examine the gutter in question. The street assessment committee reported that P. W. Ryan's bid of 58 cents per lineal foot of 18-inch pipe and \$4.50 per lineal foot of bulkhead for the construction of a storm sewer on Center from River street to the Rock river, to be used as a temporary outlet for the sewage from District 5, was the most favorable, and on Chairman Baumann's recommendation the report was adopted and the city attorney authorized to enter into a contract with said Ryan, Edward Smith, David Jeffris, Volney Atwood, and others protested against the laying of a sewer on South Franklin street, from West Milwaukee to Center, on the grounds that it was not needed and that every property-holder but one had access to the Pleasant street sewer. If the latter conduits were not low enough to drain the basement of the new Central B. E. church they could be sunk deeper and the injustice of inflicting on the other properties a sewer that would never be used, avoided. On motion of Ald. Baumann the measure providing for the construction of the sewer in question was rescinded and the sewerage committee was authorized to let the contract for lowering the Pleasant street pipes. The street commissioner was instructed by an order to repair the storm sewer on Main and S. Third streets. The city engineer was requested to prepare plans for the extension of the storm sewer at the intersection of S. Main and Sharon streets. The street assessment committee was given authority to purchase a set of sewer-cleaning apparatus and 600 feet of jointed sewer rod at a cost not to exceed \$60. By another order the street commissioner was directed to move gutter that runs along the sidewalk on Wall street across to Academy on to the gutter line of Wall and also to build brick cross-walks where the gutters have been.

### MONEY RAISED FOR MUNICIPAL USES

In Janesville This Year Will Aggregate \$112,441.49—Division Among the Funds.

Janesville's tax levy for the present year is to aggregate \$112,441.49. It was so decided on recommendation of the finance committee at the council meeting last evening. The money thus raised by taxes on municipal property is to be divided among the several funds as follows:

Bonded debt fund ..... \$15,380.26  
School fund ..... 38,000.00  
General fund ..... 10,000.00  
Fire and water ..... 15,500.00  
Lighting fund ..... 12,000.00  
Library ..... 4,000.00  
Bridge ..... 500.00  
Memorial Day fund ..... 61.25  
First ward ..... 2,000.00  
Second ward ..... 2,500.00  
Third ward ..... 4,000.00  
Fourth ward ..... 3,500.00  
Fifth ward ..... 2,000.00  
Sewer District No. 5 ..... 1,000.00

Total ..... \$112,441.49  
The total sum to be raised is \$5,000 less than last year's aggregate. The general fund is reduced \$7,000 and the fire and water fund is reduced \$1,500. There is a small increase in some of the other funds but several, such as the lighting fund, remain the same.

Madam Tsilka, the Macedonian missionary, delivered an address at the Illinois Baptist Chautauqua in Springfield Sunday.

addition on N. Jackson. The city engineer furnished a curb grade for S. Bluff street from S. First to S. Second and a sidewalk grade on the south side of S. Third from Jackson to East street. The street commissioner was directed to fill all the chink-holes on macadam streets with crushed stone and Ald. Fish asked that he reach out and surreptitiously touch up some of the non-macadam thoroughfares. He was mournfully reminded that this was against the law. North Main street was ordered repaired on the west side with crushed stone. Provision was made for the grading and laying of gutters in the alley between Franklin and River streets and the street assessment committee was requested to visit the premises and assess benefits and damages. A grade for State street and a sidewalk grade on the east side of Center avenue from State to Sutherland were called for from the city engineer. An order adopted by the council on July 10, granting the owners of certain lots fronting on Ravine street west of Chatham and on Palm street between Ravine and W. Bluff, the privilege of building four foot walks, was rescinded by a resolution in response to petitions from property-owners on those thoroughfares. The street commissioner was requested to serve notice on the owner of a certain lot in Willard's subdivision of Mitchell's addition to build a standard walk. That official was also directed to clean the gutter on the west side of High street and put in new tile on Washington street.

**Autos Must Move On.**  
A measure introduced by Ald. Jackman and given its first and second readings provides that no horses shall be left hitched or unattended or automobiles unattended on that portion of Milwaukee street lying between the west end of T. P. Burns' store and the west side of Main street intersection. It was offered as an amendment to the ordinance of May 21, 1894, designed to prevent obstruction on certain narrow portions of Milwaukee street.

**City Sold by Slim Measure?**  
In a communication Contractors Elzy & Dunn complained that they had not received full measure in buying crushed stone from the city. Herebefore they had always found a cubic yard of crushed stone equal to 5.8 yards of macadam six inches deep. Figuring on this basis they had received 1,793 cubic yards and had been charged for 2,000. They asked that the money equivalent—90 cents a yard—for the difference—207 yards—amounting to \$186.30 be refunded. The committee to whom the matter was referred asked for further time.

**C. A. Potter Vindicated.**  
Ald. Brockhaus, chairman of the special committee appointed to investigate the alleged farming out of hands at the stone crusher reported that this accusation was groundless. None of the men at the quarry had helped Mr. Barnes in his buy-making. The latter had asked Superintendent C. A. Potter for help and the superintendent had said that he might spare a few but no man could be found who was willing to give up his steady job. The report was received and ordered spread on the minutes. The city clerk was requested to order six boxes for the stone cars and a screen, for the crusher plant.

**Bids of Coal Dealers.**  
Bids for furnishing the city with sixty tons of coal were received and opened. They were as follows: G. W. Sager—\$4.7 for range or egg coal and \$6.46 for pea coal; Herman Lightfuss—\$8.50 for ten tons of egg, \$5.50 for 25 tons of range, \$6.47 for 25 tons of pea; P. A. Taylor—\$8.45 for 10 tons of egg, \$3.45 for 25 tons of range, \$6.45 for 25 tons of pea. Mr. Taylor's bid being the lowest, was accepted.

**To Send Mayor to Racine.**  
Acting on a communication from the officers of the Wisconsin League of Municipalities, inviting Janesville city officers to participate in the ninth annual conference to be held in Racine on Aug. 30 and 31, the council voted to send Mayor Hutchinson as the representative of this city, all expenses paid.

### ROUTINE BUSINESS.

Reports for the month of July were received from the board of education, municipal court, and city treasurer. Harry Huggart's work of auditing the city treasurer's books was reported completed and the books had been found in good condition. On motion of Ald. Connell a 50-candle power light was ordered installed on Glen street at the intersection of Prairie avenue. The Badger Gun club was formally authorized to hold shooting matches on their grounds near the Choate-Hollister factory. All of the aldermen were present at last night's session.

**Streets and Sidewalks.**  
Brick crosswalks were ordered built on St. Lawrence Place from East street to St. Clair; Jackson on the north side of S. Second; Terrace on the north side of Pleasant; across the alley between Terrace and Madison and the alley between Washington and Madison; on the south side of North First across Bluff; and across Galena on the west side of Glen. On recommendation of Assistant Street Commissioner Thomas McKee, new sidewalks were ordered in front of lots 5, 6, and 7, block 8, Hield's addition on Pearl street; and lots 11, 91 and 92 of Smith & Bailey's

## FIRE LOSS AS SMALL AS IN VILLAGE DAYS

Report of the Past Seven Months Only Exceeded by Report of 1848.

Not since 1848, when Janesville was but a village, has the fire loss been as small as that of the past seven months. The report from January 1 to July 31, 1905, shows that there were but thirty-eight fires and still alarms. The total uninsured loss was \$75 and the insured loss was \$239.95. For this record much praise is due Chief Klein and the employees of the fire department.

## WANTS THE FARM HE PAID THE CASH FOR

Edward Smith Starts Suit Against Grand Rapids Real Estate Firm—\$3,000 Involved.

Edward Smith, 55 Dodge street, believes he has been bamboozled in a land deal with the real estate firm of Potter and Clark of Grand Rapids and has commenced suit for the recovery of \$3,000. Mr. Smith alleges that in 1901 he visited Wood county and being shown a 160 acre farm by the defendant firm he purchased the property and received a deed. In 1904 Mr. Smith claims to have returned to Wood county and found his land occupied by a farmer. On an investigation he discovered that the farmer did own the property and the deed which he himself had received was for an adjoining piece of land of much less value. Testimony in the case was taken before Court Commissioner Oatsreich yesterday. Attorneys Fisher and Pierce appearing for Mr. Smith, and Lawyer Goggin of Goggin & Branzau of Grand Rapids, for the defense. The witnesses for the complaint were M. F. Clement of this city and Mrs. McElroy and Chas. Robinson of Beloit. The case will be tried in the circuit court of Wood county.

## FASHION NOTES

### YOUTHFUL EFFECTS IN SMART GOWNS.

There is no denying that the couturieres are placing more importance upon youthful effects. Nothing appeals more irresistibly to the vanity of womanhood and the modiste who can accomplish the most in this way with corresponding immunity from criticism is the one whose services are in greatest demand.

Antique linen—lille ancienne, as the French call it—owes its great vogue this season to the way in which it accommodates itself to the youthful effects. One of the prettiest frocks of the season is in this material, cream-white being used. It is of the princess model, but at a casual glance the skirt and shirred bodice seem separate. The top of the bodice is square, being cut away to show a yoke of fine broderie Anglaise. The linen is shirred to form a ruching at the top where it laps over the gullepe, and between this and the shirring of the body part it forms a wide but not full puff that droops slightly. Around the bottom three or four tucks varying from two to four inches in width and several inches apart form the finish. The sleeves are hired puffs to the elbows. Topping the frock is a white straw trimmed with crushed white roses and cream lace.

Another dainty confection in linen—this time double cloth—has the bodice front softly draped, the drapery being caught up on the left shoulder by a knot of turquoise blue velvet. The touch of velvet is one of the prominent notes in the latest summer confections and there is no denying its charm in connection with soft, filmy fabrics. Often the velvet falls in with the monotone scheme of the frock, but as often the velvet used is of black or dark or brilliant tone, contrasting audaciously with the color of the material.

Revering to the blue linen front under consideration, however, a line of inset lace borders the left front of the bodice, running from shoulder to girdle, and inside are set buttons of blue velvet set in gold rings. The full skirt has a lace trimmed flounce, the lace being set in to described squares with tucked centers.

It is not claimed that this frock is ornate in general effect, but it is dressy enough and smart enough for any daytime social function and emphasizes the fact that all of the smartest frocks of the season are not of complex construction. Where velvet is used in tabular effect upon sheer gowns, handsome brilliant or enamel buttons are used to hold the tabs in place. This makes an exceedingly smart trimming either for a skirt or bodice, setting off the collars and sleeves of the latter handsomely.

The demand for embroidered effects this year has been met with a great number of delicate and distinctive designs, yet none have proved more charming than the tiny bow-knots which make such a charming design. A gauze afternoon dress embroidered in pale yellow bow-knots is made over white silk. The bodice is shirred in light at the waist line, with the embroidery showing at the top. The blouse sleeves, rather close at the top but flaring out wide over the elbow, under sleeves, or a single straight fold of the gauze embroidered to match the skirt.

Blue is affected most sedulously this summer, even by women of palatial coloring, but they wear it successfully by using scarlet and rose tints about the throat.

Light summer wraps, to accommodate the sleeves of smart bodices are made with large sleeves and in all the latest models the tendency is to lower the fulness below the wrist.

After all it has been found that the silk and lace coats for thin dresses were not as practical as they ought to be, even for the extravagant woman, and while the acme of smartness, they never seem as summery as frocks made all of the same material

## Y. M. C. A. JUNIORS GO TO CAMP THURSDAY, AUG. 17

Boys of the ages ranging from ten to sixteen who are fortunate enough to participate in the annual outings of the Y. M. C. A. Juniors are coming the days just now. For the 15th of August is the date set for the opening of the camp.

A BREATH BEFORE THE PLUNGE.

ing of Camp Progress at Delavan Lake. This is the ninth year the boys have gone into camp and no accident has ever marred the pleasure of the outings. Two pleasant cottages are engaged for the occasion and a special program for each

sembly the intermediates went into camp. The Juniors will follow this present camp and the party will number twenty or more.

During the Junior camp one day has always been devoted to the Yekes observatory at Lake Geneva. This

READY FOR EVENTS ATHLETIC.

day has been planned. The site of the camp is on the beautiful grounds of the Delavan Lake Assembly.

Every boy is encouraged to learn the art of swimming and this knowledge, easily acquired with a little instruction, is bound to prove a valuable asset in later life. One of the accompanying notes shows the young men in their bathing costumes.

and that very sheer. Such should only be regarded in the light of a luxury.

Brown in the thinnest of fabrics is at the height of its favor as a summer color and it certainly affords an opportunity for an endless number of color schemes in foundation and trimmings.

MARIE MONTAGU.

## Labor Notes

A general lookout in the building trades has taken place in Basel, Switzerland, where the carpenters and joiners have put in a demand for a nine-hour day and a wage scale of \$1 a day.

The working day in Chinese cotton mills lasts thirteen and a half hours, night shifts working ten hours. Many mills in Shanghai pay by piecework, and the wages earned amount to about 12 cents a day.

The International Brewery Workers' Union is seriously considering placing a \$100,000 brewery plant in Seattle, Wash.

An ordinance providing for an eight-hour day in public works has been held valid by a local court in Detroit.

All the unions of lobster fishermen, of which there are nine, are attached to the American Federation of Labor.

The recent Washington Legislature defeated bills to prohibit boycotting and to repeal the State eight-hour law.

Bakers are circulating label agitation fans, which they send prepaid for \$5 per 1,000.

The Brotherhood of Railway Trainmen closed the year 1904 with a membership of 75,000 in good standing.

Of 1,300,000 railway workers in the United States it is said that 1,000,000 are unorganized.

### ELGIN BUTTER MARKET.

Elgin, Ill., Aug. 7.—Two hundred and twenty tubs offered, all sold at 21 cents. Official firm at same price. Output, \$22,700.

### CAUSE OF FALLING HAIR.

Dandruff, Which is a Germ Disease—Kill the Germ.

Falling hair is caused by dandruff, which is a germ disease. The germ in burrowing into the root of the hair, where it destroys the vitality of the hair, causing the hair to fall, out dig up the cuticle in little scales, called dandruff or scurf. You can't stop the falling hair without curing the dandruff, and you can't cure the dandruff without killing the "dandruff germ." Destroy the cause, you remove the effect. Newbro's Herpicide is the only hair preparation that kills the dandruff germ. Herpicide is also a delightful hair dressing. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

## WHY ARE YOU GETTING SMALL PAY?

A man or woman receives a small salary because they lack training for a special line of work; because they depend for their occupation upon the want columns of the daily newspaper, or upon some other haphazard method, instead of striving for a position of promise and profit.

The Southern Wisconsin Business College was instituted for the sole purpose of **qualifying handicapped men and women for better positions in life.** We make no distinction between the clerk and mechanic—whether a man's income is small, or his education limited. If he has the ambition to succeed, we can qualify him for a higher salary.

What others have done you can do.

1213 Hartford Building, Chicago

HOUNDED MAYOR ENDS HIS LIFE

Paterson (N. J.) Executive Is Believed to Have Jumped From Bridge.

New York, Aug. 8.—Holding back the crowd and passengers on a trolley car with a revolver, a man leaped to his death Monday evening from the middle span of Brooklyn bridge.

The man, whose identity has not been positive, resembled strongly printed descriptions of Mayor Belcher, the missing Paterson (N. J.) executive, said to be short \$150,000.

The leap to death was witnessed by hundreds of people, who were hurrying across the structure in the rush hour of the early evening.

Before jumping the man caused a panic on the car by pressing a revolver to the motorman's head and compelling him to stop the car. He apparently was insane and bent upon suicide.

HIS VICTIM HAD BEEN WARNED.

Man Who Killed Wife and Himself Found to Have Been Insane.

La Porte, Ind., Aug. 8.—A coroner's inquest was held over the bodies of David Reed and his wife. It was found that Reed murdered his wife, who was formerly Mrs. Mary R. Stockwell of Janesville, Mich., and then committed suicide by drowning, during a fit of insanity. Reed was buried Sunday, the funeral being attended by hundreds of mortally curious persons. The body

of the murdered woman was shipped to Lansing for burial. Witnesses testified at the inquest that Reed had told his wife he would kill her and warned her to prepare for death.

### WAYS OF WILD ANIMALS.

Actions of the Skunk, Coon and Otter Are at Times Very Interesting.

Own cousin in foolishness to the rabbit is the skunk. Confident of his awful weapon of defense, a skunk is only equalled in reckless bravery by the porcupine, and both are too stupid to take any warning, says a Washington Star writer. Around army camps, where the cooks cut open canned food with a hatchet, it is not an uncommon thing to catch skunks near by. The top of the can being cut in quarters by two blows from the hatchet, it is emptied of its contents and thrown on the waste pile. If that can happen to have held salmon, it is irresistible to any skunk or coon that passes to leeward of it. A little investigation locates it, a paw is tried and then a nose. The yielding top allows an entrance, but forbids an exit, and so, with the can as a hood, the prowler falls a victim to those in the camp.

It is interesting to note the actions of an otter when he finds the tracks of a man near his home. He stops and his hair bristles up and he casts a furtive look around as if he had been caught in the act of stealing chickens.

Little by little he edges away, and if he has a wife and children, sneaks off to them and hustles them out and away from the place. He knows the dangers of civilization.

The wildcat and mountain lion, after one experience with a trap, become very wise and hence correspondingly hard to trap, but a strange thing about most animals that are wise in avoiding steel traps is that they seem to know that when a trap is sprung it is no longer dangerous and will go right up to it and eat the bait.

So it is with all wild animals I have seen on the plains. The horse and the dog of civilization may be mighty intelligent and smart, but those animals that are compelled to live by their wits are not very far behind if at all.

TALE OF A FICKLE SAILOR.

Used as an Example to Illustrate the Instability of a Politician.

Mayor Weaver, of the awakened city of Philadelphia, was talking to a reporter about a very astute and witty politician, relates the Buffalo Enquirer.

"It is difficult," said the mayor, "to get this man to do anything he doesn't want to do. Cornered, he advances argument after argument against the course you desire him to pursue. He begins with weak arguments. You think you've got him. But just as victory appears assured, he puts forth a final argument that is insuperable, a final argument that floors you thoroughly."

"The fellow is like a fickle sailor of the old romance. This sailor was strong, handsome and gay. The girls liked him, and he, I fear, liked the girls. The following conversation, one moonlight night, in the tropics, passed between him and a young woman:

"Then, Jack, when shall we be married?"

"But I promised my wife, sweetheart, that I would never marry a second time."

"The young girl, beautiful in the flattering moonlight, murmured:

"Would you cast me off for the sake of a promise to a dead woman?"

"But she isn't dead yet," said the fickle sailor."

Small Boy's Mixed History.

Around the great striking figures of history the small boy weaves curious answers. "Moses's mother pitched his little cradle within and without with pitch and left him there in the pool of Sion. But when the daughter of Solomon got the green leaf from the dove she hastened and brought food convenient for him, and the babe crowed thrice and grew up in her court—Century Magazine.

Mrs. Flora McLean of Kenosha, Ill., Monday, while hurrying to meet a trolley car yesterday, fell dead in the street.

Rock River Iron Works.—A busy place is the establishment of James Harris & Co., proprietors of the Rock River Iron Works—as we have occasion to know by looking through it. There is now a full equipment of hands employed there in the manufacture of sugar mills, reapers, threshing machines, etc. Of sugar mills, several of the very best quality have been made the present season and sold, too, they being regarded by cultivators of sorghum as unsurpassed by anything yet in use for pressing the juice of the cane and preparing it for market. In fact, the trouble seems to be that orders, for mills, are likely to exceed the supply largely. A great deal is being done by this firm in the manufacture of other machinery of various kinds. Those gentlemen have acquired a reputation for making a first-class article of work, and of being upright and honorable in all their dealings. They eminently deserve the success they are so handsomely achieving.

John Dow, of Rye, N. H., 17 years old, attempted to take a loaded shotgun from a closet in his father's house, and by some mischance the piece discharged, the contents taking effect in the boy's head and killing him almost instantly.

Some idea of the pressure of office since the fourth of March may be formed from the fact that during that period five hundred and ninety-five presidential appointments of postmasters have been made. The Quadrennial post-office trouble, is now, however, about over.

George A. Hartman and George Mahoney, were arrested in the old Museum building at Troy on Saturday afternoon, having in their possession several hundred dollars in counterfeit money and the facilities for making any quantity of the same article. They were put in a place of confinement and will be held to answer.

A fat cattle epidemic has broken out in Woodstock, Canada. A number of cattle and horses have died within a week. In hogs it first showed itself by a swelling in the throat and terminated fatally in about twelve hours. In cows and horses they are sick only about ten hours, and every case where they have been attacked, the result has been fatal.

Ford's Theatre.—Workmen are now engaged in removing the woodwork, furniture, etc., from the Ford theatre, preparatory to its being remodeled as a fire-proof building for the reception of the archives of the late Rebel government. The alterations are being made under the supervision of Mr. Clark, the architect of the Capitol extension.

A fat cattle epidemic has broken out in Woodstock, Canada. A number of cattle and horses have died within a week. In hogs it first showed itself by a swelling in the throat and terminated fatally in about twelve hours. In cows and horses they are sick only about ten hours, and every case where they have been attacked, the result has been fatal.

## Forty Years Ago.

Janesville Daily Gazette, Tuesday, August 8, 1865.—A chap named Fuller who collected \$40,000 during the presidential campaign, under the pretense that he was authorized to do so by the National Union Convention, has been arrested. He turns out to be a graduate of the Missouri penitentiary.

Ford's Theatre.—Workmen are now engaged in removing the woodwork, furniture, etc., from the Ford theatre, preparatory to its being remodeled as a fire-proof building for the reception of the archives of the late Rebel government. The alterations are being made under the supervision of Mr. Clark, the architect of the Capitol extension.

Hartman and George Mahoney, were arrested in the old Museum building at Troy on Saturday afternoon, having in their possession several hundred dollars in counterfeit money and the facilities for making any quantity of the same article. They were put in a place of confinement and will be held to answer.

Rock River Iron Works.—A busy place is the establishment of James Harris & Co., proprietors of the Rock River Iron Works—as we have occasion to know by looking through it. There is now a full equipment of hands employed there in the manufacture of sugar mills, reapers, threshing machines, etc. Of sugar mills, several of the very best quality have been made the present season and sold, too, they being regarded by cultivators of sorghum as unsurpassed by anything yet in use for pressing the juice of the cane and preparing it for market. In fact, the trouble seems to be that orders, for mills, are likely to exceed the supply largely. A great deal is being done by this firm in the manufacture of other machinery of various kinds. Those gentlemen have acquired a reputation for making a first-class article of work, and of being upright and honorable in all their dealings. They eminently deserve the success they are so handsomely achieving.

John Dow, of Rye, N. H., 17 years old, attempted to take a loaded shotgun from a closet in his father's house, and by some mischance the piece discharged, the contents taking effect in the boy's head and killing him almost instantly.

Some idea of the pressure of office since the fourth of March may be formed from the fact that during that period five hundred and ninety-five presidential appointments of postmasters have been made. The Quadrennial post-office trouble, is now, however, about over.

George A. Hartman and George Mahoney, were arrested in the old Museum building at Troy on Saturday afternoon, having in their possession several hundred dollars in counterfeit money and the facilities for making any quantity of the same article. They were put in a place of confinement and will be held to answer.

Showers and thunderstorms to night. Wednesday, partly cloudy with showers in east portion of state.

If you have "set aside twenty-five dollars for the purchase of twenty-five little things at the stores—and if, by devoting an hour to the ads, you can save five dollars of this "appropriation," isn't it worth while?"

## JANESVILLE TO THE FORE.

The citizens of Janesville have occasion to congratulate themselves on the organization of the new advancement association.

The census just completed shows that the town has practically been at a stand still during the past five years. While this is a source of satisfaction to some people who are content to settle down and enjoy life in the best town in the state, it is hardly in keeping with the progress of the age.

The weakness of the city is found in the fact that too many of her citizens are content with conditions. There are too many business men who have come to believe that no amount of energy will increase their trade. They make a comfortable living, lay by a little surplus, and allow the mail order houses to capture trade which belongs to them.

This is all wrong and should be corrected. Business means energy, push and enterprise, and every man engaged in trade should be inspired with these qualities.

The man who is content to do business year after year without a substantial increase, should retire from the field.

It is true that mail order houses are a menace to retail merchants all over the country and yet they can be successfully met and largely driven from the field.

If every merchant in Janesville will supply himself with a mail order price list, and then say to the public: "I will meet any prices quoted in my line," the trade of Rock county will speedily return to the county seat.

You may say, "this can't be done," but it can, and is being done every day in the year by merchants who meet competition and who are in business for that purpose.

The Advancement Association is largely composed of young men whose future is yet before them. They realize the importance of progress, and energy, time, and money will be freely expended.

It should be possible to put the population of the city at 20,000 in 1910 when the next census is taken. This would mean an advance of 25 to 33 per cent in real estate and a like increase in the volume of all kinds of business. Men would no longer complain of being land poor, as is always the case when a town is at a stand still.

The association will find, as it gets down to work, that the most desirable industries are not looking for a bonus. The average concern that will move for a bonus is not worth moving, but there are plenty of small factories, whose business has outgrown city quarters, that can be secured with a little well-directed effort.

Janesville has much to offer to this class of industries. Rents are cheap, land is plenty, factories can be secured at moderate cost. Labor is not disturbed by strikes, and the city for a home has no rival in the west.

One large factory employing a thousand men may be desirable, but a score of smaller ones are more easily secured, and in the end more satisfying.

The way to help Janesville is for every one to boost. The man who don't believe that his home town is the best town on earth, should move out and make room for some one who does. "Forward," is the watchword: adopt it as a motto, wear it in your hat, talk it on the street, believe it in your heart, and results will be flattering.

## SERVING TWO MASTERS.

A man can not serve two masters. He must inevitably slight one or both of his masters if he attempts the double service says the Chicago Chronicle. This is the position taken by the president of the University of Wisconsin, who has decreed that no member of the faculty shall hereafter do outside work.

The president declares, in substance, that when a man accepts a position on the university faculty he thereby hypothecates himself to the state, his time belongs to the state and he has no right to reach out after other emoluments the earning of which necessitates a division of

time for which he has already been paid.

This is an obvious doctrine, and it applies to other quasigovernmental institutions than the University of Wisconsin.

But in the case of college instructors, and especially of instructors connected with state institutions, the doctrine has an especial significance and considering some of the instructors of the University of Wisconsin it has a special significance.

It means, that is to say, that a university professor or an instructor has no right, legal or moral, to accept pay from a state institution and then devote a part of the time for which he is paid to the promulgation of doctrines hostile to the very existence of the state or the institution which employs and pays him. It applies in lesser degree to foundational institutions not controlled by the state.

In plain words, a professor or an instructor in a state or an endowed institution has no right to employ his time in agitating for the downfall of the existing conditions of society. He has no right to take pay from such institutions and then devote himself to preaching—and occasionally practicing—socialism, free love and the other evolutions of advanced thought which are popular among a certain class of university professors these days. He has no right to serve two masters.

There is a good deal of indignant talk from such advanced thinkers about liberty of speech—a thing which no one proposes to deny them. They can talk all they please, but they should not get pay from society for seeking to destroy society. Their vaunted intellectual independence ought to preserve them from the humiliation of accepting money which is "tainted" by the present capitalistic system of society.

If they fail to see the inconsistency and turpitude of serving mammon in this fashion they ought to be put outside of the colleges and universities to pursue their socialistic labors unhindered.

In this view of the case the action of the president of the university might well be followed by other college heads. Let the socialistic professors devote themselves wholly to their educational duties of let them flock by themselves as private citizens.

The Chronicle sizes up the situation correctly. The University of Wisconsin like many other institutions of learning, has a weakness for text book statesmanship. Thirty-five per cent of the faculty were Bryantes in 1900 and the product turned out during the past few years is badly tinged with fanatical reform.

The colleges and universities of the land attempt today to be leaders of thought, but many of the theories advocated are dangerous to the welfare of the republic. President Van Hise will set a good example by keeping his professors busy at legitimate work and curbing the tendency to teach twentieth century reform.

It has been said that it takes a college boy ten years to discover where he is at, after he leaves school. If this was true twenty-five years ago there is no time limit today for Bryan and La Follette are the idols of many pedagogues, and both are regarded as dangerous leaders.

It must be gratifying to Lieutenant Governor Davidson to be recognized by the man who is chasing around the country with a double title. The new Board of Control is a Davidson board with a La Follette complexion. How will they manage to survive without Harvey Clark.

The Governor has discovered that John D. Rockefeller is a bad man and says that prayer meetings won't save him from perdition. Rockefeller and the weather are always safe propositions to discuss because they never talk back.

The Evanston policeman who fired a revolver at an automobile, established a dangerous precedent. Another crank used a shot gun to stop a car in Racine. This sort of lunacy is contagious, and unless it is dealt with promptly every town in the country will develop an arsenal.

The life insurance investigation, which is still in its infancy, is a good thing for the country. There will be more money in circulation when deferred dividends are paid annually, and less incentive to speculate with trust funds.

The Janesville Chautauqua was a success, and reflects credit on the management.

## PRESS COMMENT.

Superior Telegram: An order has been issued at the chautauqua bathing pool in St. Louis prohibiting gentlemen from hugging the ladies in the water.

LaCrosse Leader-Press: The La Follette administration hit its own men hardest by the new anti-pass law as they now hold most of the offices.

Chicago Record-Herald: A Georgia poet sings: "We sweetened the light with song." Up here we have to sweeten the light with a dollar per thousand feet.

Evening Wisconsin: Yesterday Chicago had two arrivals and six clearances to remind her that she was once considered the leading port of Lake Michigan.

Exchange: Prospects for the amendment of the football rules so that accounts of games will not read like reports of the war in the far east do not appear to be bright.

New York Herald: A Buffalo judge fined a man \$41.20 for stealing a kiss

from a girl of that city, which is evidence that they are still charging Pan-American prices there. So don't let them "put you off."

Oshkosh Northwestern: It is said that Mr. Isaac Stephenson is considerably interested in the matter of house-rent in Washington, and the prices current for food and provisions in the national capital are receiving his close attention. "Beware! He's fooling thee!"

Waupaca Post: Stevens Point is undergoing the agonies of a street fair this week. Waupaca has escaped thus far this season. In fact, the only thing of the kind we ever had was three years ago, and the patronage was not such as to warrant a repetition of the event, for which we are very thankful.

Green Bay Gazette: Kenosha, Racine, Janesville, Beloit, Milwaukee and other adjacent cities are suffering from an invasion of crooks since Chief Collins began his house-clearing in Chicago. These cities should act in concert and all build a smudge together.

Sheboygan Journal: Mrs. L. A. Bishop of Fond du Lac has resigned from the library board because her husband is physician for the Northwestern road and the law forbids her to accept passes. Fond du Lac ought to congratulate itself on its narrow escape from a horrible graft scandal.

Appleton Post: It has never yet happened in this ambitious country that a town demands a recount of its inhabitants, because the census takers have exaggerated the number, and the reason why is that no American town is thus made any larger than it thinks it is.

Minneapolis Times: Ten years ago the business of the electrician was entirely in the hands of the men, not one woman having invaded the field. Today there are four hundred and fifty women in the business. And this new line of labor is opening up a larger source of income than the more popular fields of female employment.

Chicago Live Stock World: Josh Billings must have foreseen the noble roster of subscribers to "Pads and Fancies" when he wrote: "An American aristocrat is the most ridiculous thing on the market. They are generally ashamed of their ancestors, and if they have any and live long enough they generally have cause to be ashamed of their posterity."

Milwaukee Daily News: To avoid the pitfalls of precedence, the president will entertain the peace commission at a napkin luncheon instead of a formal dinner with the problem of deciding whether Jap or Russian should sit at the executive's right hand. It does not seem to have occurred to Mr. Roosevelt, however, that by using a round table with a hole in the middle for himself, the embarrassment could be avoided.

Eau Claire Leader: Governor La Follette is usually lucky in his press notices. Just at present it is going the rounds that he said he would like to hang Stuyvesant Fish, president of the Illinois Central, on account of poor service on a recent date. By the time explanations are made and the little flurry is over the governor is just so much more talked about.

Marquette Eagle-Star: Two thousand dollars' worth of slot machines were burned this week in Milwaukee. Marquette's slot machines were not burned but they were effectually removed by the order of the mayor and the whirr of the nickel and quarter in devices in heard in the land no more whereabouts. They are an insidious form of the gambling vice and thousands of dollars were lost annually in them here.

Evening Wisconsin: The fish commission's enforcement of the new law providing for the building of fishways in the dams on all rivers wherein game fish exist below the obstruction will be hailed with joy by amateur fishermen. The multiplication of the game fish should be encouraged by measures that are within the bounds of reason, because "good fishing" is what may be called a valuable asset.

El Paso Herald: Boycotting is always a double edged weapon, and probably America can play with it quite as well as China. For one thing, Sir Thomas Lipton has been trying to convince us for some years, albeit, without much success, that his Ceylon plantations raise much better tea than ever left Shanghai. For another, Japan can very likely be induced to furnish us a little more silk. From China we take about eight millions worth; from Japan \$34,000,000 worth.

Racine Journal: The Indians of Indian Territory perceiving joint statehood, that is combining their territory with Oklahoma and forming one state, means the submerging of the Indian part are arising to object to the proceedings. They have the rather singular idea that Indian Territory comprising so many thousands of Indians is entitled to an equitable representation in all conventions, and viewed the late proceedings in which were considered or were to be considered the subject of joint statehood as noticeable in the non-representation of the Indian citizens. It looks to many people outside of those two present territories that justice would be better subserved if the people of Oklahoma were admitted to statehood by themselves, leaving Indian territory alone as it is.

Milwaukee Sentinel: In the light of the far denial from F. C. Gross, president of the Wisconsin Rendering company, that Charles F. Pfister owes that concern \$14,000, or any part of that sum, much speculation arose yesterday as to what furnished the basis of excuse for returning an indictment charging larceny. The only clue to the grand jury's purpose is contained in the morning organ of the district attorney, in which it is stated that the object of the alleged "true bill" was to ascertain how the money was expended. It is boldly asserted that even the jurors

themselves do not believe the charge they have made, but that they voted an indictment for the purpose of securing information. There were some who were slow to believe that a grand jury should lend itself to such a scheme. They thought that a mistake might have been made and that the testimony of Mr. Gross at the time he was before the inquisitors had been misunderstood. But when they read in the organ which is supposed to get its information direct from the district attorney and keeps in close touch with them at all times that there was no hope of proving a bribery charge against Mr. Pfister and that the indictment was returned simply to get him to testify as to his disposition of the fund which was placed in his hands, they were astounded. They could not recall that any previous body, possessing so much power, had undertaken such methods.

Fond du Lac Reporter: As was predicted some weeks ago when Prof. Showalter was removed from the superintendency of the Janesville School for the Blind, Harvey Clark, who was at that time a member of the state board of control has been appointed to fill the vacancy. Mr. Clark was accused by Prof. Showalter of making trouble at the Janesville school for the sole purpose of ousting Prof. Showalter from the position so that Clark, himself, might obtain it. The appointment of Mr. Clark lends considerable color to Prof. Showalter's statement. Mr. Clark is, and always has been an enthusiastic supporter of Gov. La Follette. Some one had to give up his place on the state board of control to make room for the feminine member provided by the last legislature. What to do with the ousted member was a problem that must be solved. Mr. Clark solved it by signifying a willingness to succeed Prof. Showalter in the Janesville school. The position is one he has long coveted. He tried to get it when Governor La Follette was serving his first term and has had an eye on it ever since. This is not because Mr. Clark has any special qualifications for such a position. By profession he is an attorney but he has always been too busy reforming politics and looking for an easy job to spend much time building up a practice. The point to all that is that there is very little difference between a so called reform administration of public affairs and an administration by officials elected on strict party lines.

## ANXIOUS IOWA MOTHER FEARED SON IS DEAD

Write to County Clerk Lee Asking About a Boy Who Was Killed by Lightning.

County Clerk Lee recently received from a Mrs. John Truesdale, Sr., residing at 2338 Coulter avenue, Dubuque, Ia., a letter inquiring for particulars regarding James Brown who was killed by lightning some weeks ago near this city. One of her sons who had at times adopted that name was last heard from in Wisconsin. He had corresponded regularly with her up to the time the fatality she read about in the paper. The unfortunate young man she inquired about lived with his parents in Rock county.

## LIGHTNING STRUCK TEXAS OIL FIELD

(SPECIAL BY SCHIFFS-MORAN.)  
 Houston, Texas, Aug. 8.—Lightning again struck the Humble Oil Field this morning and fire is raging in the gully tanks. If it can be confined the loss will not exceed half a million barrels. In the immediate vicinity five million barrels are stored.

## NEGRO HUNG BY FT. WORTH MOB

(SPECIAL BY SCHIFFS-MORAN.)  
 Fort Worth, Texas, Aug. 8.—A mob this morning took Sam Majors, a negro, from the jail and hanged him to a bridge. He assaulted a white woman a few days ago.

## Ruminations of a Dog.

NEVER did have parents, No one to care for me, Just a homeless dog of leisure, The kind you often see. But I'm thankful for the blessings, And I'm glad my lot ain't worse, I might have been a poodle, With a woman for a nurse.

Oh, you measly little noodle, Baby ribbons in your hair, Put on dog just like a human, The way you're sitting there! Have your bath in perfumed water, Mamma combs your curly locks, Go out riding in your carriage, See the opera from a box!

Oh, you watery eyed impostor! Oh, you dude! You pink nosed fop! Why, a single flea, I'm certain, Would fairly make you hop. You are tucked away at evening With your forty misery To a nightie and a cradle, Where a baby ought to be.

They call you lovey dove and sweetie— Oh, you curly headed pup! Just come down from off the carriage And watch me eat you up! Why, you poor eyed little poodle! Would I trade my place with you? Bow-wow! No! I wouldn't do it If it'd throw the nurse in too.

Yes, I know I'm full of sorrow— Full of fleas and all of that— Got no home and have to hustle In the alley with the cat, But I'm happy—oh, so happy!— That my lot ain't no worse, That I wasn't born a poodle, With a woman for a nurse.

—Denver Post.

## A Jiu-Jitsu Hint.

Fair Victim—Pardon, Mr. Snobberts, this is a waltz, I believe, not a bout of jiu-jitsu!—Punch.

The Reprobate's Wish.  
 "Here," said the trainer, "take off those trunks. They're too tight to run in."  
 "Gee," said the athlete who sometimes worried his trainer by going in for dissipation, "I wish that policeman I met last week had thought that about me!"  
 "Had thought what about you?" asked the trainer, who was of English extraction.  
 "That I was too tight to run in," replied the student regretfully.—Baltimore American.

Practical Girl.  
 "Phyllis," he exclaimed, "I love you. I place my happiness in your hands!"  
 "For goodness' sake, don't do it now," she hastened to beg.  
 "Why not?"  
 "Because I'm sure I'll need both hands in a minute or so to keep you from kissing me."—Philadelphia Press.

Hunting a Roll.  
 "Does your wife ever look under the bed at night?" asked the inquisitive gentleman whose better half was very timid.  
 "Oh, yes," replied his friend, "ever since I tried to hide my vest under there one night."—Detroit Tribune.

Momentary Panic.  
 Mrs. Cranshaw—Tom was awfully scared when he saw those four figures on the tag of my new gown.  
 Mrs. Crawford—Didn't he know they represented the number?  
 Mrs. Cranshaw—No. The poor boy thought it was the price.—Puck.

Our Flexible Language.  
 "Pa, what does it mean when you say that one man completely overshadows another?"  
 "Why, it means that he outshines him."  
 "Oh!"—Cleveland Leader.

The Only Way.  
 Jack—What do you do when in doubt about kissing a girl?  
 George—Give her the benefit of the doubt.—Philadelphia Telegraph.

Question of Experience.  
 "My wife," remarked Nosed, "is the dearest little woman on earth."  
 "Oh, I don't know," rejoined Oldwed, with a large, open faced sigh. "How much does she cost you a month?"—Chicago News.

Too Truthful.  
 Yeast—He says he believes there are as big fish in the sea as ever were caught.  
 Crumbsbank—It's evident he's no fisherman.—Yonkers Statesman.

Silence may possibly be golden because it can be bought.

The people who keep their troubles to themselves also keep their friends.

## NO BAND CONCERT

## AT PARK TONIGHT

Knott & Hatch's orchestra is playing for the Young Ladies' Sodality at their picnic at Ho-no-ne-gah park today and there will be no band concert this evening. The program that was to have been rendered will be given at Court House park on Friday evening.

## GIRL IN LOCK-UP

## FOR SMALL THEFT

Nora Timpany, a Domestic, Spent Night in City Hall Lockup—Charged with Stealing.

Nora Timpany, a young lady of twenty-one years who up till recently had been employed as a servant girl b Mrs. Cole who resides in the Moie addition in the First ward was arrested last evening by Officer Brown on the charge of stealing five dollars. She was taken to the city hall lock-up and there spent the night. It is alleged that after taking the money she suddenly left the Cole home and has been the guest of a friends who works at the home of Judge Dunwiddie. She has confessed to the theft.

## FLASHES FROM ALL

## OVER BUSY WORLD

(SPECIAL BY SCHIFFS-MORAN.)

St. Paul, Minn., Aug. 8.—The business interests of the twin cities are trying to settle the telegraphers' strike.

## Killed at Atlanta.

Atlanta, Ga., Aug. 8.—An unknown man ran amuck on the streets last night and was killed. One other was stabbed and six badly injured.

## Death in Explosion.

River Bluff, Mich., Aug. 8.—John Midding and Richard Prudice were killed in the Baltic Mine explosion today.

## Life Taken by Bees.

Owensboro, Ky., Aug. 8.—Bees stung Thomas Hawkins, aged 45, today and he died in five minutes.

## Fruit Packers Unite.

San Francisco, Aug. 8.—Packers and growers formed a corporation to control the raising industry. Henry J. Crocker is president.

## Standard Oil's Big Sales.

Constantinople, Aug. 8.—As a result of the strike in the Russian oil fields the Standard Oil Company has sold nearly four hundred thousand casks in the eastern market.

## Suicide in Missouri.

Booneville, Mo., Aug. 8.—Dr. J. P. Heen, a medical traveling salesman, committed suicide in a hotel in this city this morning by taking poison.

## Steamer Wrecked at Neenah.

Neenah, Wis., Aug. 8.—The steamer "Evelyn" was caught in a log raft in the storm and held fast. A panic ensued and two men fell overboard but were rescued. Five are missing and thought lost.

## HIGH GUN HELD BY STANNARD

CHICAGO PROFESSIONAL BEST IN  
THE TOURNAMENT

### OF THE BADGER GUN CLUB

Forty Took Part in the Events and  
Seventeen Shot from Begin-  
ning to End.

One of the most successful tournaments in this section of Wisconsin this season came to a close yesterday afternoon when the Badger Gun club of Janesville concluded its two days' shooting at the club grounds south of the Choate-Hollister factory. About forty entries were made in the various events, but only seventeen contestants shot in all the events. W. D. Stannard, of Chicago, an old Janesville boy, now with the DuPont Powder company, won the highest av-

W. D. STANNARD.

erage at the traps, breaking 212 out of a possible 265. Maloney of Rockford, the crack rifle shot of the state, won the medal for the highest amateur average, bagging 212 out of a possible 265.

Well Represented.  
Several of the best professional and amateur shots in the state were represented in this tournament. Deering, of Columbus, who is considered the best amateur shot in Wisconsin, was entered in yesterday's contests. He held the high gun at Menominee, Mich., last week, breaking 380 out of 400 birds. Schultz of Tomah, Pierstrolf of Middleton, Graham of Long Lake, Brown of Fond du Lac, Mason of Grand Rapids, and Hobbins of Madison did good work. Roy Pierson of Janesville was up among the leaders.

Was Complete Success.  
Much credit is due to the members of the Badger Gun club for the manner in which they conducted the tournament and looked after the wants of their visitors. Frank Steinkins, of the Winchester Repeating Arms company, and Carl Moore of the U. M. C. helped to make the meet a success by looking after the squads, taking care of the books and keeping the score.

The Scores.  
The scores of those who shot the entire program:

	Shot at.	Score.
Stannard	265	243
Maloney	265	242
Schultz	265	241
Pierstrolf	265	240
Chapman	265	239
Graham	265	238
Groger	265	233
Newbush	265	215
Lord	265	209
Pierson	265	208
Brown	265	207
Roth	265	205
Mason	265	205
Williams	265	205
Steenberg	265	203
Norton	265	201
Hobbins	265	193

### COMPLETED THE CONTRACT.

Contractor John Cullen of this City Met With Rockford City Officials Yesterday.

Contractor John Cullen of this city was in Rockford yesterday and met with the members of the building committee and city officials and arranged all the details on the contract for the erecting of the city hall. Everything was satisfactorily arranged and the firm of Winchester & Cullen have already made some regulations for material to be used on the structure. They will get the stone as soon as possible and try and get the building enclosed before cold weather arrives.

### LOST A PET HABIT IN THE INDIANA MUD BATHS

E. A. Reynolds of Beloit Can No Longer Tolerate His Old Cough.

E. A. Reynolds of Beloit went to Milledgeville, Indiana, to take mud baths for nervousness. He had no expectation of parting with any other afflictions but now he has returned to the Lake City minus his pet habit of smoking tobacco. The fumes of the weed no longer induce sweet content—they make him sick. He does not know whether he ought to be thankful or not to that blanchet of hot mud.

A good thing—a want ad.

## RICHARDSON MEDAL PLAY IS COMMENCED

Eight Players Sifted from Sixteen  
This Afternoon at Sinnissippi  
Links.

This afternoon the first preliminary round in the race for the Richardson trophy was played on the Sinnissippi Golf Links. Sixteen were in the contest and the eight successful winners will be paired to play next Tuesday. On August 22 the semi-finals will take place and the finals for the medal on the twenty-ninth. For this afternoon the pairs and each player's handicap were as follows: Fred Schaller 6 and Fred Baker 8; Morse 6 and George Baumann 8; Leo Brownell 4 and A. M. Valentine 6; P. E. Field 8 and J. P. Baker 6; O. Sutherland 6 and George Brownell 8; C. C. MacLean 6 and Wilson Lane 8; H. C. Carter 6 and A. Schaller 8; Stanley Tallman 8 and H. S. McGiffin 6.

24h. can Richelle coffee \$1. Nash.

### BRIEF NEWS ABOUT TOWN.

Blind School Expenses: The current expenses at the State School for the Blind for the month of July amounted to \$871.90, by far the lowest of any of the nine charitable and penal institutions of Wisconsin.

No Hit Off Sheehan: James Sheehan made his last appearance on the baseball diamond at the testimonial game played by the Eagles and Beloit K. of C. at Yost's park Sunday. He pitched and not a hit was made off his delivery. Major McGinley of Janesville was at the bat. Sheehan pitched one ball and it went too wide of the plate for the Major to strike at it. The old timers then retired and the benefit game proceeded. The Eagles won by the score of 4 to 2. There was a parade before the game in which the two men mentioned, Jim Ternan, Garvin, and others marched.

Performed Operation: Dr. J. E. Pender performed an operation on John Lee at the Palmer Memorial hospital yesterday for appendicitis which was very successful.

Picnicked Up River: At Idlewild park today was held the summer picnic of the St. Peter's English Lutheran church Sunday school. Boats left at half past nine, half past one and five o'clock.

A special meeting of W. H. Sarant W. R. C. No. 21 will be held at G. A. R. hall Thursday afternoon at 2:30 o'clock to arrange for the dinner for the reunion of the 12th Wis. Regiment and also for the transaction of other business that may come before the meeting. Let every member make an effort to be in attendance.  
VICTORIA E. POTTER, Pres.  
MARY A. SLATER, Sec.

Sporting Goods.

McNamara the hardware dealer. The best assortment in this part of the state.

Buy it in Janesville.

A good thing—a want ad.

## FELL DEAD LAST NIGHT ON STREET

Harrison Johnson Succumbs Unexpectedly to Heart Failure—  
Veteran of Civil War.

Walking across the street from the Y. M. C. A. building, where he had been seated on the steps conversing with friends, last evening about eleven-thirty Harrison Johnson, staggered, fell onto the vegetable display table in front of Taylor Bros' grocery store and died. His sudden and unexpected demise was directly due to heart failure and up till his death no symptoms of even the slightest illness were noticeable. Mr. Johnson, 62 years of age, was a native of New Hampshire, but came west in early manhood, settling in southern Wisconsin. At the outbreak of the rebellion he returned to his native city and enlisted in the Ninth New Hampshire Volunteer regiment. With this body Mr. Johnson served for four years in the army of the Potomac and at the close of the conflict wore the stripes of a sergeant. In 1865 he returned to Wisconsin and since that time has always been employed in railroad duties. Mr. Johnson came here seventeen years ago from Spring Green and has acted up till about two weeks ago as transfer agent. Of late he had been serving as flagman at the McKee Boulevard crossing. He was a member of the Grand Army post at Spring Green and of the F. & A. M. Masonic lodge number 55 of Janesville. Mr. Johnson was never married and those left to mourn his loss are a sister-in-law, Mrs. H. R. Johnson and nephew, Walter L. Johnson, 176 Terrace street, this city, and another nephew, E. B. Johnson, of Chicago. The funeral services will be conducted privately tomorrow afternoon from the home of Walter Johnson.

### TO MAKE BOOKINGS EARLY IN OCTOBER

Manager Hnlbrook Talks About Next Year's Chautauqua—Dr. Grant Cracking Rocks.

"Bookings for next year's Chautauqua in Janesville will be made early in October," said H. M. Holbrook today. "We will have a better program than the one this year but it will cost us no more, owing to the fact that we will have adequate time to secure the attractions. No, it is not our plan to enlist any local talent next season. When this is done it creates a bad effect on the foreign talent. We shall probably have the same site again—perhaps at the same terms as we got it this year. Mrs. Mole was public spirited enough to tender the use of the grounds for nothing." Mr. Holbrook leaves for Chicago tomorrow. Dr. Grant is still in the city and armed with a hammer is today examining the rock formations up river. A clue in the identity of the thief who stole the \$28 tent from the grounds has been found and it is expected that the property will soon be recovered.

## WM. MERRILL OF MILWAUKEE DEAD

Vice-President of Northwestern Mutual Life Passed Away at Pasadena, Cal., Today.

(Special by SCHLES-MAK.)  
Milwaukee, Wis., Aug. 8.—William Merrill, aged 65, for years vice-president of the Northwestern Mutual Life Insurance Company, died this morning at Pasadena, California. "The Holy City" at the MYERS THEATRE LAST NIGHT  
Was Well Received by a Rather Small Audience—Some Improvement Noted.  
Throng refused to be tempted indoors of a perfect night and "The Holy City" did not enjoy the patronage it might otherwise have expected at the Myers theatre last evening. These present seemed to enjoy the performance. Some of the cruddies that characterized the presentation here last fall have been eliminated and the production is very nicely staged. The great majority of people accept with hesitation a play of this kind when presented by the most gifted actors. Whether or not "The Holy City" as played in Janesville last night will and ought to survive, is a question.  
All Masons intending to attend the laying of the corner stone of the New Masonic Temple at Watertown, will take the 8:20 train Thursday morning; those who go please take express.  
A. C. THORPE,  
Secy No. 14.  
J. A. PATTERS,  
Secy No. 55.  
"The Little Garmur is a good home-made five-cent cigar and it suits me," said Henry L. McNamara, the hardware merchant.

## NEWS OF A PERSONAL NATURE

William R. Norris, former instructor of history and coach of athletics in the Janesville High school is here for a few day's visit, having come from Chicago, where he now makes his headquarters yesterday afternoon. Mr. Norris spent the winter in the Pacific coast states, representing a Chicago text book and school supply company.

Mr. and Mrs. A. N. Gieson were Chicago visitors yesterday.

A. Norton was the guest of friends at Lake Geneva over Sunday.

Miss Nellie Quirk spent the day in Rockford.

John Abbott has returned from a week's visit with relatives at Waukegan.

M. H. Whitaker left this morning for Milwaukee.

Stowe Lovejoy left this morning on a business trip to Chicago.

Mr. and Mrs. Horace McElroy are the guests of friends at Lake Kegonsa.

## VERDICT IN FAVOR OF THE PLAINTIFFS

Scott & Sherman Win Suit Against  
George Decker—Motion to  
Set Aside Verdict.

By a jury of five in Municipal court, Judge Fifield presiding a verdict was rendered yesterday against George Decker for \$352.80 on the complaint of the real estate firm of Scott and Sherman. The legal difficulty arose, it seems from a misunderstanding. Witnesses who appeared for the complaining parties testified that Mr. Decker, as administrator and agent for the Shields farm near the city, asked them to secure a buyer and agreed that whatever was realized from the sale above a certain amount should be the real estate men's commission. Scott and Sherman proceeded to hunt a buyer and succeeded in the persons of Mr. and Mrs. Edward Carter. When all was ready for the transfer of the property, heirs to Shields estate refused to sign the deed and to get remuneration for their services Scott and Sherman sued Mr. Decker for \$352.80 the amount of their commission had the land gone into the hands of Mr. and Mrs. Carter. Attorneys George Sutherland and William H. Dougherty appeared for the plaintiffs and Malcolm O. Mount for the defense. James W. Scott, L. A. Sherman and Mr. and Mrs. Carter testified on the complaint but no witnesses were introduced by the defense. The jury consisted of Wellington Wiley, John Chase, L. L. Fletcher, A. S. Waite and Frank Gentle. The defense moved that the verdict be set aside and the hearing of the motion was set for August 10.

Attention Comrades.  
The funeral of our late comrade H. M. Johnson will be held to 176 Terrace street tomorrow at 2:30. All comrades attend that can.

E. Heller, Commander.

### TWO-POUND BLAST IN DISFAVOR

Workmen Contend That Small  
Amount of Powder Does Not Dis-  
solve Enough Coal, While Employ-  
ers Say It Tends to Prevent Acci-  
dents.

Chicago, Aug. 8.—The shot-firers law is causing trouble again between the Illinois coal mine operators and the mine workers. The bone of contention this time is the size of the shots to be used in firing blasts in four large Illinois mines, and the dispute has caused the throwing out of work of nearly 2,000 miners since July 1 and the shutting down of the coal mines at the towns of Thayer, Virden, Divernon, and Auburn.

The executive boards of the Illinois Coal Mine Operators' association and the Illinois Mine Workers' union met in joint session here and endeavored to reach an agreement without resorting to the state board of arbitration. Nothing definite was accomplished, and the two boards will hold another joint session.

**Miners Find Wages Decreased.**  
According to the miners, the operators of the four mines affected have insisted upon the use of blasting charges of less than two pounds, thus dispensing with the services of shot firers and lessening the expense of the operators, and also increasing the difficulties of the miners by adding to their labors, as the law provides that in mines where the blasting can be done with less than two pound charges the work of blasting must be done by the miners and the powder paid for by them.

**Say Blasts Are Too Small.**  
The miners claim that in the mines involved in the present dispute the blasting cannot be done profitably with less than two pound charges, as smaller blasts do not bring down enough coal to keep the miners employed steadily in breaking and removing it. They say that too much time is used in preparing the increased number of smaller blasts, and as they are allowed no pay for the time thus used they are thus obliged to suffer a heavy loss of wages.

**Operators Point to Danger.**  
The operators maintain that the firing of large blasts is attended with serious danger to the miners, and has been the cause of heavy loss of life and destruction of property. In addition, the firing of large blasts means increased expense, as they are compelled under the recent decision regarding the shot-firers law to pay half the cost of their services.

**Japanese Cadetships.**  
Cadetships in the Japanese navy are open to every subject in the empire, as are also commissions in the army and all civil appointments under the government, says the London Chronicle. There is no system of nomination, and the successful candidates are chosen entirely by competitive examination. The naval cadets during the present war have naturally given a strong impetus to the eagerness of high spirited youths to enter a service which has won such glory for their country, and the applications for naval cadetships during the present year already far exceed in number those of any preceding entire year. In one district of the four in which they are received they already amount to over 9,700 as against 3,000 in 1903 and 5,500 in 1904.

**Novelty in Libraries.**  
Mosquito libraries will soon be a possibility. The latest book on this subject is a monograph of 132 pages by S. P. James on one species of mosquitoes—the malarial anopholes of India.

**Secret of Violin Varnish.**  
It has long been suspected that the master makers of violins in Italy in the seventeenth and eighteenth centuries knew of some remarkable gum which they employed in making the varnish for their instruments. Mr. George Fry, of the Chemical Society, London, who has carefully investigated the subject, concludes, after showing that the varnish exercises a decided influence over the tone of a violin, that Staudacher and other famous makers probably used only linseed oil and resin rather than some mystical gum. The resin was oxidized with nitric acid. It is doubted whether the popular idea that age is advantageous rather than detrimental to a violin is well founded.—Youth's Companion.

**Couldn't Identify Himself.**  
The body of an unknown man was found in Carthage, Mo., recently. It was hastily identified as that of a certain Carthaginian. He was a man of grim humor. Hearing the report he went to the morgue, looked at the body with care, then solemnly and positively declared the dead man was not himself.—N. Y. Tribune.

**Escapes Death by Miracle.**  
The death has occurred at Dunmore schoolhouse, Stirlingshire, of Robert Livingstone, who had a number of the most remarkable escapes during the Indian mutiny. On one occasion a cannon ball grazed his left temple, only leaving a burned scar, and on another, while enjoying a hard-earned breakfast, a piece of bacon was shot off his fork when half-way to his mouth.

## IN ACTIVE FIGHT AGAINST FEVER

Dr. White of the Marine Hospital  
Service, in Charge at New Or-  
leans—New Cases Reported.

(SPECIAL BY SPECIAL AGENT.)  
FORT WORTH, TEXAS, Aug. 8.—One death and two cases of yellow fever were reported at Fort Worth, this morning. The train was suspended on the Kansas City Southern between Shreveport and Beaumont. Strict quarantine has been established.

**Archbishop Very Low.**  
New Orleans, La., Aug. 8.—Dr. Larnia, who is attending Archbishop Chappelle, says today that he cannot forecast the outcome of the prelate's illness. He says he is suffering with a typical case of yellow fever and just holding his own.

**The Healthy Suffer.**  
New Orleans, La., Aug. 8.—Quarantine regulations are so strict that Governor Blanchard has appealed in a public statement for relaxation. Many towns are unable to get food, ice and medicines. In the rice district the crop is going to waste for want of sacks and twine to bag the grain. Six cases are now reported at Bon Ami, nineteen at Patterson and four at Shreveport. A petition has been forwarded asking Dr. Leach of St. Paul to come to try his arsenical-aid-preventive theory. The school of Tropical Medicine of England is to send two physicians.

**Dr. White in Charge.**  
New Orleans, La., Aug. 8.—The federal government has commenced to fight against yellow fever in New Orleans.

Assuming charge of the situation yesterday forenoon, Dr. J. H. White of the marine hospital service is already actively prosecuting his campaign. The transfer of minor details of the work from the state to the federal authorities will be gradual, indeed, that there may be no confusion or delay. The change will have been fully effected, however, by tonight.

With ample funds, the best available talent, and an army of workers at his command, Dr. White is determined to accomplish the hitherto seemingly impossible task of stamping out the disease before the comet got frost. There was a slight, but only a slight, falling off in the number of cases. The number of deaths remained at its usual average. No attempt is being made any longer to conceal the fact that the situation is grave and that the disease is of a virulent type.

**Many New Cases.**  
Two large foci of infection were discovered outside of the city by officers of the marine hospital service. Dr. Corput went to look into some suspicious cases, and found six positive yellow fever cases, three of which ended in death. They are on a sugar plantation and three of them were Italians. One was a negro. The other point of infection is the town of Patterson, in St. Mary's parish, where Dr. Guiteras found nineteen cases. Most of these are also Italians. The local health boards have taken charge in both instances and are following out the directions of the marine hospital service.

**Sick Man on Car.**  
A panic was caused here in a crowded street car by an Italian suddenly contracting a severe case of black vomit, brought on by yellow fever of three days standing. When he entered the car no attention was paid to him, but after the car had filled up with passengers it was noticed that he was quite sick. His face became pale and his body shook with chills and fever.

The passenger sitting next to the Italian declared that the man was suffering from yellow jack, and when he began to vomit everyone agreed with him. The passengers immediately became panic-stricken. The conductor was signaled to stop the car, but before it had stopped the passengers had dashed through the front and back doors like scared deer.

**Flee From Dying Man.**  
The motorman and conductor also deserted their posts, leaving the car standing on the track without an occupant except the Italian, apparently in the death agony. The traction company was notified to send a fresh crew to take the car to the barn, and after great difficulty it was finally started. A screened ambulance was summoned and the Italian was removed to the emergency hospital. An official summary of the deaths from yellow fever for the week ended last Saturday shows that forty-eight persons died, an average of nearly seven daily. The mortality report for whites is 20.41 and 20.44 for negroes. The total white and colored death record is 27.40, a large increase over the preceding week.

Of all the deaths last week more than one-third were from yellow fever, of which 90 per cent were Italians, who died from neglect.

**Archbishop Improves.**  
Reports from the bedside of Archbishop Chappelle are that the venerable prelate is slightly better. Hopes are entertained for his recovery.

Eight hundred men were put to work cleaning up the city, under the direction of the municipal authorities. Gangs of men are working in all localities, and will be so engaged until Wednesday, when a swarm of cars will be used to remove the debris. Wednesday will also be a general holiday, as all banks and business houses will be closed to enable the employees to assist in exterminating the mosquitoes.

**Commercial Losses Enormous.**  
It probably will never be possible to estimate the losses which New Orleans has suffered in a financial way through the diversion of business, but the heavy tax on the people by the present visitation is shown by the fact that, besides the money already spent

by the board of health and the \$250,000 to be raised for the government thousands of dollars have been subscribed and expended in the ward work.

On a conservative estimate \$50,000 has been raised by the subsidiary organizations and used for cleaning, oiling and temporary screening. Probably \$50,000 more will have to be spent by landlords in the wiring of their districts.

Arthur Hoy, head brakeman on the Milwaukee freight train, was killed Sunday morning at Roselle near Elgin. He came dizzy while walking along the top of the cars of a moving train, lost his balance, and fell between the cars.

**Orders Ships in Italy.**  
Genoa, August 8.—The Venezuelan government has placed an order here for six torpedo boats and one torpedo-boat destroyer.

Read the want ads.

**Japan's Postmaster-General.**  
About fifty-three hundred officers and men who have been killed since the battle of Liangpang up to the battle of Mukden will receive the Golden Kite, says the Japanese Weekly Mail. This posthumous honor is already sanctioned by the emperor and will shortly be published by the Official Gazette.

**A Temperance Move.**  
By way of combating the tendency to take strong drink, the royal railway directors of Cassel, Germany, have decided to manufacture bottled lemonade and mineral water and sell it to the employees only, at about a cent a bottle, the bottle to be returned.

**Vain Butterfly.**  
How different is Madge from the little hand mirror.  
Into which she so often fondly peeks.  
For Madge always speaks without ever reflecting.  
The mirror reflects without speaking.

Nichols Co.—"Cherry Ripe" decorated crockery choice **10c**  
Dedrick Bros.—10 bars **25c** Sweet Burr **10c pt.** Lenox soap **10c pt.**  
E. R. Winslow—2 lb. can Sliced Pineapple extra fine **15c can**  
J. M. Bostwick & Sons—One bale of Smyrna rugs, 30 x 60 inch, new patterns; all colors **85c**

## J. M. BOSTWICK & SONS.

### PRICES MAKE THEM MOVE.

There's no magic like price magic to move the surplus lots of seasonable merchandise. We're going to make August memorable for its trading opportunities. It will pay you to watch—it will pay you to investigate. That it will pay you to buy goes without saying. It pays anybody to buy a wanted thing, when that wanted thing can be bought for a quarter to a third less than its actual worth.

### Such a Selling of Shirt Waists.

There's to be a few days of shirt waist selling such as will be long remembered. Try to get an early selection from these lots. Only a few left of the odds and ends that were up to \$2.00; your choice now for **25c**. Others at **65c**. The beautiful, fine, sheer fancy muslin Waists, that have been \$3.00 to \$7.00, can be bought now at a saving of \$1 to \$2.50.

### The Stock Collar Sale.

There'll be some busy buying of stock collars when the news of these bargains gets abroad. Collars, that were marked down from 25 and 50c, special price **10c**.

### The Wash Goods Sale.

We have picked out four of our prettiest wash goods; we have placed them in lots and priced them as follows: **5c, 9c, 12½c, 19c**.

### All Linen Suiting.

Best value ever offered. Assorted stripes, all colors, imported linen, 32 inch, made to sell at 50c. For suits, petticoats, children's wear, nothing wears better. They are only **25c**.

### Every Wash Suit to Be Sold.

It's your wash suit chance, and you should take advantage of it. White and colored, all priced for quick selling.

Agents for Vador Porch Shades. Premium Purchase Tickets not given after Sept. 1st.
